1 Introduction

1.1 Purpose of this document

This document contains the description of the release version 6.1.0 of the eGovERA Tax Reference Architecture (eGovERA Tax RA).

eGovERA is an architecture content metamodel defining the most salient architectural building blocks(ABBs) and Solution Building Blocks (SBBs) needed to build interoperable e-Government systems (Decoupled functionalities).

1.2 Release date

This version of the eGovERA Tax RA has been released on the 31st of January 2025 in [Joinup](#).

1.3 Description

This version 6.1.0 is completely aligned with the latest version of the EIRA. The content of the release has been developed through an agile project management approach. Tickets from EC internal and external stakeholders have been analysed to address their feedback and requirements.

1.4 List of acronyms used in this document

ABB	Architectural Building Block
EC	European Commission
EIRA	European Interoperability Reference Architecture.
IoP	Interoperability
SKOS	Simple Knowledge Organization System

2 Release Components

The eGovERA Tax RA consists of the following release components.

2.1 [eGovERA Tax RA v6.1.0 ArchiMate.xml](#)

The Open Group ArchiMate Exchange File Format, containing the model.

Modification	Details
Version 6.1.0	
Creation of views, renaming views, changing relations and inclusion of missing ABBs in views	Tax version 6.1.0 includes different types of changes from Business Agnostic 6.1.0: creating views, renaming views, changing relations and including missing ABBs in views. A summary of the changes can be seen in the excel ChangeLog-eGovERA-Taxv6.1.0.xlsx and all missing elements that have been added can be seen in the excel ChangeLog-1-eGovERA-BA-Taxv6.1.0.xlsx   ChangeLog-eGovERA-Taxv6.1.0.xlsx ChangeLog-1-eGovERA-BA-Taxv6.1.0.xlsx
Version 6.0.0	
ABBs, Views and Viewpoints update	The quality review carried out has been focused on aligning the new release with the major release of EIRA, which implies: • Enhancing the consistency of all views and between them. • Properties have been harmonized amongst the whole model. • An additional effort has been put on Data Spaces to ensure that all layers for developing architectures of data spaces are covered within EIRA and eGovERA. • Added support to EIRA Viewpoints in eGovERA. • Introduction of new Motivation views at all LOST views aiming to depict the relationship between main elements such as Digital Business Capabilities, Digital Public Services (Business Services) or application services. • Introduction of new Enterprise Architecture Framework Alignment Guidelines view and content. • Support to modelling Functional and Non-Functional requirements (EAF). • Support to modelling Architecture Decision Records (EAF). • The new release ensures the traceability of the model between and throughout views. • The readiness of the model has been

simplified adding explanatory views about how to read the model, adding a High-Level view at the entry point of the model and including shortcuts in the views to more detailed views (stratum modelling).

- Architecture Principles coverage is ensured by adding a principles view to the main folder.
- Documentation, relations and quality of the model elements (views, classes, groups, etc) have been dramatically improved by applying Artificial Intelligence during the modelling process.
- The quality of the model has been ensured using scripting to automatise the quality reviews of the model.

ABBs, Views and Viewpoints update	The quality review carried out has been focused on aligning the new release with the major release of EIRA, which implies: • Enhancing the consistency of all views and between them. • Properties have been harmonized amongst the whole model. • An additional effort has been put on Data Spaces to ensure that all layers for developing architectures of data spaces are covered within EIRA and eGovERA. • Added support to EIRA Viewpoints in eGovERA. • Introduction of new Motivation views at all LOST views aiming to depict the relationship between main elements such as Digital Business Capabilities, Digital Public Services (Business Services) or application services. • Introduction of new Enterprise Architecture Framework Alignment Guidelines view and content. • Support to modelling Functional and Non-Functional requirements (EAF). • Support to modelling Architecture Decision Records (EAF). • The new release ensures the traceability of the model between and throughout views. • The readiness of the model has been simplified adding explanatory views about how to read the model, adding a High-Level view at the entry point of the model and including shortcuts in the views to more detailed views

	(stratum modelling). • Architecture Principles coverage is ensured by adding a principles view to the main folder. • Documentation, relations and quality of the model elements (views, classes, groups, etc) have been dramatically improved by applying Artificial Intelligence during the modelling process. • The quality of the model has been ensured using scripting to automatise the quality reviews of the model.
	 EIRA v6.0.0 Changes.xlsx
Version 5.0.0	

2.4 [ISA Product License v1.4.pdf](#)

The license under which the eGovERA Tax RA is released.

Modification	Details
Version 1.4.0	
New version of the ISA license	
Version 1.3.0	
Replacement of specific ISA Product licenses by a generic license	
Version 1.2.0	
Typo "hereafter"	
"or later versions" replaced by "which replaces earlier versions"	
Version 1.1.0	
Typo "above" replaced by "below".	
Version or ArchiMate explicitly mentioned (i.e. 2.1).	
Reference to citizens of the EU included.	
Version 1.0.0	

2.5 [eGovERA Tax RA v6.1.0 release.zip](#)

An archive containing each of the above-mentioned files.
